

**ADVANTAGE WEST MIDLANDS
WOLVERHAMPTON CITY COUNCIL**

Bilston Urban Village

ENVIRONMENTAL STATEMENT

Environmental Statement

Bilston Urban Village

CONTENTS

Non Technical Summary

1.0 INTRODUCTION

Requirements for Environmental Impact Assessment
Scope and Content of the Environmental Statement

2.0 DEVELOPMENT PROPOSALS

Site Location and Context
Existing Site and Access
The Vision for Development
Description of Development
Design Approach and Guidelines
Sustainability
Landscape and Environmental Strategy
Management and Maintenance
Assessment of Alternatives

3.0 PLANNING POLICY

National Policy
Regional Policy
City Council Policy

4.0 SOCIO ECONOMIC ISSUES

Introduction

Baseline Conditions

Development Proposals & Effects

5.0 TOWNSCAPE CHARACTER AND VISUAL EFFECTS

Introduction and Methodology

Baseline Local Townscape

Baseline Visual Analysis

Scheme description & mitigation

Townscape Effects

Visual Effects

Conclusion

6.0 ECOLOGY AND NATURE CONSERVATION

Introduction & Methodology

Nature Conservation Results and Evaluation

Planning Policy

Assessment of Effects

Mitigation Proposals

Residual Effects

Construction Effects

Statement of Effects

7.0 HERITAGE & ARCHAEOLOGY

Note: Summary only – refer to Appendixes 7.1 & 7.2 for detail assessments.

8.0 WATER, HYDROLOGY, AND DRAINAGE

Introduction and Methodology

Regulatory Authorities

Hydrogeological Setting

Coal Measures Hydrogeology

Assessment of Impacts (Hydrogeology)

Surface Hydrology

Assessment of Impacts (Surface Hydrogeology)

Preliminary Analysis

Construction Effects

Operational Effects

Mitigation Proposals

Statement of Effects

9.0 GEOLOGY AND CONTAMINATED LAND

Introduction and Methodology

Baseline Conditions

Contaminated Land

Spoil Mounds

Mineshafts

Mineworkings

Unconsolidated and Heterogeneous Fill

Slag

Japanese Knotweed

Mitigation Proposals

10.0 NOISE AND VIBRATION

Introduction and Methodology

Baseline Conditions

Assessment of impacts

Vibration

Mitigation Proposals

Statement of Effects

11.0 AIR QUALITY

Introduction and Methodology

Baseline Conditions

Assessment of impacts

Predicted Concentrations for Air Quality

Mitigation Proposal

Statement of Effects

12.0 TRAFFIC AND TRANSPORT (Statement of Effects)

Note: Refer to separate Transport Assessment and
Travel Plan studies for further details.

13.0 CLIMATE CHANGE

Introduction

Global Climate Change

Local Climate Change

Infrastructure Mitigation

Vehicle Useage & Location

Masterplan & Built Form

Habitats

Landscape

Conclusion

14.0 CUMULATIVE EFFECTS
